

REMARKS

Consideration of the present application in view of the above amendments is respectfully requested.

The sequence listing filed February 18, 2009, does not include two sequences (SEQ ID NOS: 688 and 689) that were present in Figure 1 of the application as originally filed. Accordingly, a new sequence listing is provided herewith that merely replaced SEQ ID NOS:688 and 689 previously having “null” identifiers with nucleotide and amino acid sequences shown in Figure 1. Additionally, the sequence listing corrects typographical numbering errors present in the <222> fields of SEQ ID NO:696. The new sequence listing includes no new matter that goes beyond the original application as filed. Applicants respectfully submit that the above-identified application is now in compliance with 37 C.F.R. §§ 1.821-1.825 and WIPO Standard 25. In view of the new sequence listing submitted herewith, the paragraph that incorporates the text copy of the Sequence Listing in the present application has been amended. Additionally, the brief description of Figure 1 and Example 83 have been amended to correct errors in describing the sequences shown in Figure 1. No new matter has been added.

The Director is authorized to charge any additional fees due by way of this Amendment, or credit any overpayment, to our Deposit Account No. 19-1090.

Respectfully submitted,

SEED Intellectual Property Law Group PLLC
